PROPOSALS FOR SUPPLIES. MINT of the United States, Superintendent's Office, Carson City, Nevada, May 1, 1903. Sealed proposals will be received by the undersigned until 12 o'clock noon on the 20th day of June, 1903, for furnishing such supplies as may be required from time to time by this Mint during the twelve months ending June 30, 1904, embracing acids and other chemicals, wood, charcoal, salt, borax, soap, oils, crucibles, covers, stirrers, buck gloves, cotton cloth, dry goods, metals, hardware and other necessary supplies. Schedules and blank forms for proposals, with information as to the quantity of each article that will probably be required, will be furnished on application. Proposals will be considered separately on each article, and upon comparison of the prices and samples of articles furnished, and will be accepted as to the whole or a part, as may be deemed for the best interests of the Government. The right to reject any or all proposals being reserved. Requisitions will be made on the parties whose bids may be accepted and the articles must be furnished as required without delay. Proposals, to receive consideration must be accompanied by a sufficient bond, with one or more sureties, and by samples of such description of the articles as will clearly designate the kind and quality. Proposals should be addressed to the undersigned and inclosed, with a copy of the advertisement, in a sealed envelope indorsed "Proposals for Supplies." The bids will be opened and registered at the hour named in the presence of bidders and the officers of the Mint. T. R. HOPPER, Superintendent U. S. Mint, Carson City, Nevada.

A Burglar Alarm.

Jake Longabaugh of this city has taken the agency for the Burglar Alarm Bell which is one of the best anti-burglar devices on the market. It is secured to the casing of a door and set by means of a simple lever each night before retiring. The instant the door is opened ever so little it goes off with a racket intended to give a burglar the snakes. In the day time the lever can be moved away from the door without turning the bell on and is altogether a very neat and necessary feature. Price \$1.75. Jake Longabaugh Agent for Nevada. j4tf

ALL SORTS.

Mr. Banning of Steamboat Springs was in town yesterday.

Superintendent Lyman of Virginia City, was in town yesterday.

The examination of the Pine Nut mines has been postponed until Monday.

WANTED—Girl to do general house work, wages \$25. Apply at M. Cohn's. j6

Warren Dipple, is in the city. He says that the Rubicon Springs will be open on the 16th of June.

Arnold Millard, the plumber, is so rushed with work that he hardly has time to eat. That's because he does good work.

The Tribune don't seem able to get it through its pin head that the party in power select their own official organ.

The old vigilantes who were going to hang Ned McGowan forty years ago in San Francisco, are assisting him in his old age.

What earthly use has the old ring for their two newspaper organs? This is one of those conundrums no one can answer.

Suppose the Republicans had elected the County Commissioners what show would the APPEAL have for county printing?

Coiner Colburn insisted that he should be allowed to put his machinery in order before leaving, and the Department allowed him to put eight men to work.

Louie Hung Lee, the wash Chinaman, desires to thank all his patrons whose clothes were lost in the fire at his house last week, who did not charge the lost to him. j7w

When years ago Dr. Guinan put in a bid 50 per cent cheaper than Dr. Lee, to act as county physician, the Board rejected it. Did the Tribune raise any howl at that time? Hardly.

It was supposed that yesterday when Eddie got his warrant for \$30 for the county printing that he would turn back a portion into the county treasury. He didn't however. Probably an oversight.

The Tribune threatens to show up the official records of Commissioners Muller and Peterson. If it can show any corruption on their part, the APPEAL will assist the Tribune with all the means at its command.

The taxpayers of Ormsby must prepare to see the treasury looted for at least a year and a half. The Silver party Commissioners are not running the county for their "health."—Tribune.

If this is the case we trust the Tribune will tell the next Grand Jury what he knows in reference to looting.

All information that citizens of this State can give the APPEAL on land grabbing, in Nevada will be thankfully received. Information is gradually coming in and if half we learn is true there are plenty of men in this State who ought to be wearing convict's stripes. As fast as we can verify information we will publish it.

The County Commissioners of Storey have reduced the police force at Virginia, knocked out a number of electric lights, ordered that the police shall attend to the lighting of gas lights, and instituted a number of other economic reforms. These were the only reductions that could be made under the new law, which only applies to expenditures, not specifically ordered by law.

Are the Commissioners In?

The Police Commissioners of San Francisco have whitewashed corrupt subjects who rolled in wealth off the tribute levied upon fallen women.

Such a man is lower than the miserable creatures off whose shame he thrives. Seventeen women testified that they paid him blackmail every month.

The Commissioners said that the testimony of such people had no weight.

This is simply a hint to the accused that he is at liberty to go ahead and ply his trade with that class.

How do the Commissioners account for a man on \$150 a month living like a prince? Either he had the Commissioners in the door or they were in the divy.

THEIR OWN MEDICINE.

Our Contemporaries Squalling As They Take It.

The Tribune made a very foolish break when it put in a bid of \$25 a month to do printing and advertising that the county had been paying \$50 for for a year and \$60 the year before.

Why did not these papers protest against the price long ago? Simply because they were getting the money.

Now Mr. Parkinson knows as well as anybody else that \$25 a month is not sufficient for the work and he has frequently declared to the Board that there was no money in it for him when he did half for \$30.

Now if he really means what he says, (which is mighty seldom) let him pay back into the treasury all above his ideas of the proper amount to charge.

He has still another month to run on his county contract, let him do it this month at the figures he claims are correct: this will show the taxpayers that he is really in earnest in his wild shout for economy.

Now the APPEAL has always claimed that it was not in the printing business for any philanthropic motives, but to make a profit on work done.

Any man who will try and do a cut throat business, merely to prevent a rival from doing a profitable business, is contemptible beyond all expression. It is the presence of these miserable rodents in the business that has brought the printer's craft down to its present state of demoralization in Nevada.

If the county could afford to pay \$50 a month all last year, it can do so now.

The News is also howling about the printing and inadvertently admits that the APPEAL's bid last year was the lowest.

If this be the case, why wasn't it given the work? Because the ring didn't want it that way.

But the News and Tribune deceive no one by their wild cries of reform. If the APPEAL is robbing the taxpayers this year, by doing work at the same price they did it last year, then they must admit that they were in a combination to rob the taxpayers all last year.

They are not in earnest when they get up and manifest a sudden interest in the taxpayers. If they were, why did they lie quiet and never voice a protest against the high handed illegal contract steals that the APPEAL was exposing all last Fall? They never uttered a syllable in defense of the taxpayers then, and this is why the taxpayers have since repudiated both these sheets, because they are run in the interest of a clique of political free-booters, who have been looting the Treasury of Ormsby for years.

They put up a job to down the APPEAL and got beautifully left.

Since their underhanded fight against the APPEAL it has grown steadily in favor with the public and the wails of these sheets are merely the echoes of their backers, who, if the APPEAL was not in existence, could throttle the County of Ormsby and have everybody in it at their mercy.

P. A. WAGNER.

MRS. JOHNSON'S SUIT.

Wants \$25,000 From a Dead Husband.

Yesterday the suit of Mrs. Horace M. Johnson against the S. P. R. R. was begun in the District Court.

In August 1892, Mr. Johnson the deceased husband of the plaintiff was an engineer on the S. P. R. R., and the complaint set forth that he was running an old engine and that the check valve became out of order, so that he was being covered with hot steam, but he went out on the running board to hammer down the valve when a jolt of the engine threw him off near Brown's Station, and he received such injuries that he died the next day. The plaintiff asks damages on the grounds that the engine of the defendants was defective.

During the proceedings Tremnor Coffin sat next the defendant's attorney's, Wines and Dorsey, and appeared to be assisting in the handling of the case, whereupon Gen. Clarke, attorney for the plaintiff, rose and said he desired to ask whether Mr. Coffin was really an attorney of record for the defendants. The attorneys for the S. P. Co. said that Mr. Coffin was not.

THE TELEPHONE.

Hello APPEAL.

Hello, who's that?

I'm Tim Connolly and I desire to have ye make a statement to the public.

A—What is it Tim?

T C—Till the taxpayers to look out, I saw a light in Coffin's office last night after tin o'clock.

Hello Eddie,

Hello.

A—Are you still posing as a friend of the down trodden taxpayers?

E—Yes you bet I am. Of course I admit that the county ain't payin' any more for printing than they was last year. It's a dirty shame, however, if I can't get thirty a month out of the county to pay up on my California land.

Hello Witherell.

Hello.

A—What do you mean by that document you filed with the Board of County Commissioners the other day?

W—Blessed if I know. Coffin and Summerfield drew it up and you'll have to ask them. It's some job of theirs and I just signed it to help them along.

Empire Items.

The present warm weather is melting the snow in the mountains and we are having a small flood in Empire. The water is up to Wiggins' saloon, and Dead Man's Island is submerged. Fiddler's Green is about two-thirds under water, which is rising three inches every 24 hours. It looks as if we might have a serious flood.

E. May, Foreman of the Mexican Mill, is putting four Frue concentrators in working order, and is going to run two hundred tons of low-grade ore from the Crown Point over them. If it proves satisfactory the whole forty-four stamps will be running in a short time.

R. H. Logan, Superintendent of the Brunswick Mill, has struck a bonanza in his mine in Como. He is removing the Welter mill up to the mine and will get it in position as soon as possible.

There is great excitement over the over the rich strike in the Reno and the whole district is being relocated. One man from the Brunswick located no less than five claims last Saturday, and still he don't like to have anything said about hogging things. The Morgan and Vivian mills are running on slimes, and the Brunswick is running thirty stamps on Confidence ore.

Sam Longabaugh thinks it will be late in July before he can cut his safety boom at the head of the valley on account of the high water.

NEL MAHER.

The County Physician's.

The impression that Dr. Herrick was removed from the office of County Physician by the Board of Commissioners to make room for Dr. Guinan, is an erroneous one. It was amicably agreed between the two that they should divide the time of attending to the county business each taking it six months in the year and the change on July 1st by which Dr. Guinan takes charge until the 1st of next January, is in pursuance of that plan.

Ex-Judge Reeves of Eureka is in the city.
